Road Collision			

1x Public Order – This was at the services – male being aggressive towards staff – male left before Police arrived – unknown male – crime closed.

We are aware of a male in the wooded area jumping out at lone females committing a sexual act on himself. We’ve had an arrest, which is still ongoing. I’m currently in the process of obtaining permission from the landowners, to allow us to install temporary cameras in the area to aid and assist gathering evidence. Last sighting was in March.

#### PC342 Firth Reports

**On Thursday 25th April 2024 - between 12pm and 1pm,** I attended to West Bretton as part of Fly tipping and burglary offence deterrent (speed gun not available).

Throughout the evening, I drove around the streets and paid attention to the fly tipping hot spots and for burglary hot spots. There were no issues throughout the evening - Some vehicles were checked due to poor state of repair or typical burglary vehicles - however, none came back with any cause for concern.
