1x RTC – Deer hit – Huddersfield Road

1x RTC – Single driver hit a tree – blew Zero. No obstruction.

1x Suspicious – Bad driving through the village – Area searched but not found.

PC342 Firth Reports

On Sunday 22nd December, I attended to Bretton for safe scheme overtime. I attended to: Top Lane - Spoke with a couple of drivers and obtained their number plates for future awareness.

Jebb Lane and surrounding areas - Fly tipping patrols completed - no issues throughout Mini car park at the national entrance part - throughout - no vehicles or peoples seen in this area

Sculpture park entrances old and new - checked throughout but nothing of note to report

Side streets in the village - these were all checked a couple of times, but no issues

I checked some vehicles in the village also - I spoke to a couple of drivers relating to poor driving and vehicle faults.

PC342 Firth Reports

On Wednesday 11st December, between 11pm and midnight, I attend to West Bretton for safe scheme overtime.

I completed patrols around Bretton with the aim of theft offence and fly tipping deterrents. There was suspicious calls earlier in the evening in Crigglestone, therefore patrols completed with descriptions of vehicles and suspects who were not far from Bretton. On patrolling the area, I parked up in different locations and completed vehicle checks - there were none of concern, I did speak with one driver relating to a bulb out but that was a quick check and the driver was of good attitude.

I attended to the top car park area (just after the national limit) there were no vehicles here throughout the evening. I attended to Top Lane and captured number plates of vehicles parked there for future reference. Almost half of those present left shortly after I arrived. No activity was seen.

Throughout the evening, there were No calls for service.
